Announcing our Codeshare Partnership with Saudia

Enabling seamless access to
8 destinations in Saudi Arabia

Dear Travel Partner,

Air India is pleased to announce its 24th codeshare partnership with Saudia, effective February 2026. This collaboration strengthens network connectivity, expands flight options, and enhances the overall travel experience for customers of both airlines. The flights operated by Air India and Saudia between Delhi/Mumbai and Jeddah/Riyadh are also covered under the codeshare and will offer guests 16 flights each way every week with 'AI' flight numbers (7x weekly by Air India and 9x weekly by Saudia).

Under this partnership, Air India guests flying to Jeddah or Riyadh will be able to seamlessly connect on Saudia to key domestic destinations including **Dammam, Abha, Gassim, Gizan, Madinah, and Taif, with additional international connections to be introduced later this year.** The new Jeddah–Riyadh codeshare also offers greater flexibility by allowing arrivals into one city and departures from another.

Saudia guests will gain access to an expanded Indian network via Mumbai and Delhi, with onward connectivity to major cities such as **Ahmedabad, Bengaluru, Kolkata, Kochi, Hyderabad, Chennai, Lucknow, Jaipur, and over 15 additional destinations across India.**

Through this codeshare partnership, customers will enjoy simplified booking and through-checked baggage.

We appreciate your continued partnership and look forward to your support in promoting this enhanced connectivity.

Warm regards,
Team Air India
