POWER NETWORK

HIRETECHLADIES.COM

Above all else, we are a community

Tech Ladies connects you with the best jobs and opportunities in tech.
We connect companies with the best techmakers.

Tech Ladies connects companies with the best women techmakers in
engineering, product, design, marketing and more.

TECH LADIES

WHAT DO ALL HIRING PARTNERSHIPS INCLUDE?

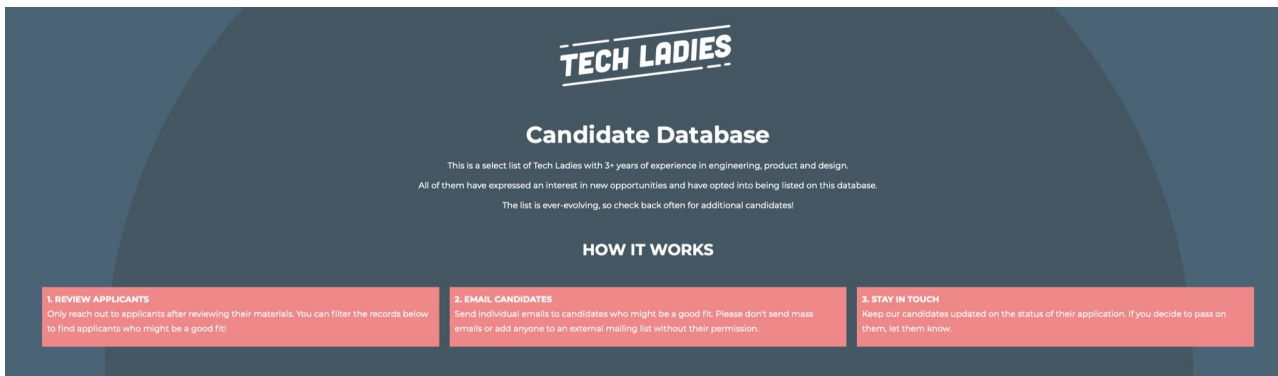

- **Candidate Database:** Source from our curated list of Tech Ladies who are actively on the job search.
- **Brand Recognition:** Get your company in front of the largest and most trusted community of women in tech.
- **Premium Service:** We post and update your jobs for you, review all roles for inclusive language that will get you the most traction, and deliver applicants directly to your pipeline via ATS integration.

CANDIDATE DATABASE

Our professional career coaches & community managers hand-select top tier members to be invited into our database.

This is a curated list of Tech Ladies who are actively job seeking.

- Resume
- LinkedIn Profile
- Responsive to our team

The image is a screenshot of a landing page for 'Tech Ladies'. At the top, the 'TECH LADIES' logo is displayed in a white, stylized font with a dashed underline. Below the logo, the title 'Candidate Database' is centered in a white sans-serif font. Underneath the title, there is a block of white text explaining that the database is a select list of Tech Ladies with 3+ years of experience in engineering, product, and design, who have expressed interest in new opportunities. Below this text is the heading 'HOW IT WORKS' in white. At the bottom, there are three red rectangular boxes with white text, each containing a step number and a title. The first box is titled '1. REVIEW APPLICANTS' and describes the process of reaching out to applicants. The second box is titled '2. EMAIL CANDIDATES' and describes sending individual emails. The third box is titled '3. STAY IN TOUCH' and describes keeping candidates updated on their application status.

TECH LADIES

Candidate Database

This is a select list of Tech Ladies with 3+ years of experience in engineering, product and design. All of them have expressed an interest in new opportunities and have opted into being listed on this database. The list is ever-evolving, so check back often for additional candidates!

HOW IT WORKS

1. REVIEW APPLICANTS
Only reach out to applicants after reviewing their materials. You can filter the records below to find applicants who might be a good fit!

2. EMAIL CANDIDATES
Send individual emails to candidates who might be a good fit. Please don't send mass emails or add anyone to an external mailing list without their permission.

3. STAY IN TOUCH
Keep our candidates updated on the status of their application. If you decide to pass on them, let them know.

Team Tech Ladies Insights

I'm open to fullstack positions but I'm definitely more interested in frontend work and would prefer roles that focused more on that side of things.

TECH LADIES SUCCESS STORIES...

As an Asian American woman in tech, having trusted resources and allies are most important to ensure my success and growth within the industry. It feels less daunting to know I can lean on Tech Ladies to find jobs with intentionality and purpose, and a reflection that these partnerships help women land awesome roles in places where they are truly valued. Thanks so much for helping me land my role at Carbon Five!

VANVISA MUSIGAPALA

Product Designer at [Carbon Five](#)

Thanks to Tech Ladies, I found my dream job at an amazing company. Utilizing the Tech Ladies job board and weekly job drop emails ensured I would find a role with a company committed to hiring women in tech.

LISA TREVIS

Front End Developer at [Savas Labs](#)

I'm extremely grateful to Tech Ladies for helping me find my new position as a Software Engineer with Quartet Health. I found the job announcement from a Tech Ladies email and went to the job board and immediately felt drawn to Quartet Health's mission in helping others in their mental health journey. I'm so excited to get started!

NIKIYA SIMPSON

Software Engineer at [Quartet Health](#)

My friend introduced me to Tech Ladies through Instagram and I signed up for their newsletter. I am grateful for Tech Ladies helping me find my new role at Kin + Carta. After seeing the listing in my email I applied, and within days was interviewing. I recommend Tech Ladies to anyone looking for new opportunities!

JACQUELINE SIMON

Sr. UX Research Analyst at [Kin + Carta](#)

TECH LADIES

PARTNER SUCCESS STORIES...

Partnering with Tech Ladies has been a seamless and supportive experience. Our top of funnel increased with a number of talented candidates, one of whom we just hired! DE&I is at the forefront of our hiring efforts and we are proud and excited to continue to work with this amazing community that is committed to promoting, empowering, and fostering the best female talent out there.

ANDREA ROE

Talent Lead at Bestow

"We had a great experience working with Tech Ladies - it was seamless, easy and fruitful. We received a great pipeline of candidates, one of whom we just hired. We are excited to continue to work with this amazing community that is committed to highlighting the best female talent out there."

NEHA CHINAI

VP Finance & CoS at Kafene

We have had tremendous success with Tech Ladies and it has become our go-to board for finding talented engineers and marketing folks. An essential part of our E, D & I efforts, matching our core values. Also, the Tech Ladies staff is a joy to work with. On a personal level, I've been a member of Tech Ladies for years and have found the community extremely supportive - especially the Facebook community. Keep up the good work!

JENNIFER NEVES

Talent Lead at Tidelif

"Two years ago it took us 3+ months to find the right Product Designer to join our team in San Francisco. After connecting with Tech Ladies last month, we made our first offer within 3 weeks! I've been really impressed with the quality of candidates and am excited to continue building a team of Tech Ladies!"

HOLLY KENNEDY

VP Product at 15Five
