

Urology Bags

Premier's drainage solutions are built with a focus on safety, comfort and usability. Leg bags and night drainage systems discreetly collect urine, allowing care recipients to stay active during the day and rest comfortably overnight. Choosing high-quality drainage solutions means fewer disruptions, less hassle, and more confidence — for both carers and those in their care.

LEG BAGS

Made with user comfort in mind, Premier Leg Bags feature a soft, flexible design that moves naturally with the body — supporting mobility and independence without compromise. Their secure connections and easy-to-use drainage system help reduce leaks, promote hygiene and allow for effortless emptying.
