*General Superintendent*

# EMPLOYEE SPOTLIGHT

**How long have you been with Irby?**

Twenty-three years.

**What do you find most unique about this company?**

All the little things that Irby does to take care of its employees, and in many cases, the opportunity to work in one area for an extended period of time.

**What motivates you most about your job?**

The satisfaction of successfully completing projects and solving problems that arise in day-to-day operations.

**What has been your favorite project at Irby and why?**

I am a little biased on this one and have to say it's the ongoing project here in Southern California, working for Imperial Irrigation District. Irby has had the privilege of having IID as a customer for over 40 years.

**If you are married, for how long? If you have children/grandchildren, how many?**

Yes, I have been married for over 22 years to a beautiful young lady from Canada. We have five children and one granddaughter, whom we just absolutely enjoy spending time with!

**What is something people don't know about you?**

I recently joined the Palm Springs Corvette Club after restoring and modifying a 1973 Corvette Stingray over a three-year period, from bare frame to final paint. I did it all myself, and it came out looking pretty good.

**Do you have a motto that you live and work by? If so, what is it?**

The one I like to say and try my best to adhere to is "Put in the extra effort up front, so that you succeed the first time".
