

# EMPLOYEE SPOTLIGHT

**How long have you been with Irby?**

Since January 2020.

**What do you find most unique about this company?**

I find that this company is very family-oriented.

**What motivates you most about your job?**

Working with people who truly care about work quality and the company's continued success.

**What do you enjoy most about your job?**

I enjoy being in the Transmission Power Line Industry in general. Seeing how the work we do has such vital importance to the community, especially during devastating storm events.

**What has been your favorite project at Irby and why?**

The Entergy Alligator Bayou to Fort Worth project. It required three different types of foundation installations, over three different sections separated by outages, different equipment types to mobilize per section, and unforeseen obstacles and delays. This project required the most coordination effort to ensure success and was the one I learned the most from.

**What is something people don't know about you?**

I attended a music school in Hollywood, Los Angeles, and met, jammed with, and learned from some of the most talented musicians from all over the world.

**Do you have a motto that you live and work by? If so, what is it?**

Luck is only preparation meeting opportunity.
