

Springmeds

Your option for affordable GLP-1 medication.

Help your patients save thousands of dollars and achieve their health goals.

How It Works

1 Prescriber sends the prescription to Springmeds

Fax included prescription form to 1-888-870-2808

Call 1-888-305-1722, dial option 2

TIP: Faxing or calling in the prescription ensures speedy processing and accuracy. EMR software for e-prescribing does not generally support compounded medication.

2 Patient sets up account with Springmeds

Patients can either:

- Scan QR code to order online
- Call 1-888-305-1722 to order over the phone

TIP:

Using our website, patients can:

- Set up their account
- Get real-time, up-front pricing on all medication
- Keep track of prescriptions
- Submit for refills

all from the comfort & convenience of their homes!

3 Medication is shipped directly to the patient's home!

Medication is shipped with 2 day delivery after processing

GLP-1 Medications Pricing Guide

Semaglutide 1mg/1mL - \$119
Semaglutide 12.5mg/2.5mL - \$149

We're proud to offer affordable prices on GLP-1s.

Medication is sold by individual vial, without commitment or subscription so you and your patients stay in control of dosing.

About Us

We built Springmeds to make GLP-1 therapy more affordable without disrupting the provider-patient relationship. Through our partnerships with a premier 503B FDA-regulated outsourcing facility and a nationally licensed pharmacy fulfillment partner, we're able to negotiate exceptional pricing and pass every bit of savings on to patients—no subscriptions, no requirements, no upselling.

Patients are provided the medication and necessary syringes along with a GLP-1 Injection Guide.

About Springmeds

Springmeds is dedicated to reducing prescription costs for Americans. We prioritize lowering the prices of expensive generic medications while remaining competitively priced on common, inexpensive prescription drugs.

SEMAGLUTIDE TITRATION GUIDELINE

The following guidelines on titration schedule are based on the commercially available products.

First Two Months:

- 0.25mg per week for 4 weeks
- 0.50mg per week for 4 weeks

To follow this schedule, the patient receives the following:

- 1 Semaglutide 1mg/1ml vial
- Syringes
- Alcohol Pads

After the first two months, if the patient has not achieved their goal, then the dosage can be increased as follows:

- 1mg/week for 4 weeks
- 2mg/week for 4 weeks

To follow this schedule, the patient receives the following:

- 1 Semaglutide 12.5mg/5ml vial
- Syringes
- Alcohol Pads

After 4 months, next actions are based on clinical outcomes.
